

SCHEDULE OF WORKPLAN CONDITIONS

FILE COPY

MINING LICENCE NUMBERS 5003

1. Realignment of Batters and Construction of Permanent Morwell West Drain

- 1.1 The work plan approval is subject to the satisfactory resolution of any issues raised by the peer review in relation to the design and construction of the permanent Morwell West Drain; and
- 1.2 An independent peer review shall be carried out at key design stages including prior to construction, following the construction of the permanent Morwell West Drain and at the completion of the bulk earthwork stage of the Morwell Hill Climb Club area. The design must adopt a rigorous assessment process and incorporate a quantitative risk analysis and strictly meet the ALARP principle (risk must be As Low As Reasonably Practical); and
- 1.3 A suitably qualified professional shall carry out the independent peer review with significant geotechnical expertise in the Latrobe Valley mine site conditions; and
- 1.4 The results of the peer review shall be reported to the Environmental Review Committee; and
- 1.5 Yallourn Energy fulfilling its commitment to relocate the Morwell Hill Climb Club to the Latrobe Council's and the Club satisfactions.
