Dear David

**TRUenergy Yallourn EPA Licence: EM29213**

**TRUenergy Yallourn's Landfill Financial Assurance**

Under the reformed EPA 29213 licence condition G6, TRUenergy Yallourn must maintain a financial assurance calculated in accordance with the EPA method.

In 2006, TRUenergy Yallourn had GHD complete a risk based assessment for the ash landfill assurance to EPA guideline requirements. A presentation for consideration by EPA was lodged in March 2007. We are yet to receive EPA advice on TRUenergy Yallourn's proposal. In order to address this matter we propose to put in a Financial Assurance of \$2.485M based on this submission from March of 2007 attached for review.

TRUenergy Yallourn is seeking to discuss with the EPA the next steps required to progress the ash landfill assurance and to confirm assurance requirements for the TRUenergy Yallourn hard rubbish and asbestos landfills.

Kind Regards,
